

MINERAL RESOURCE RESERVE ESTIMATION

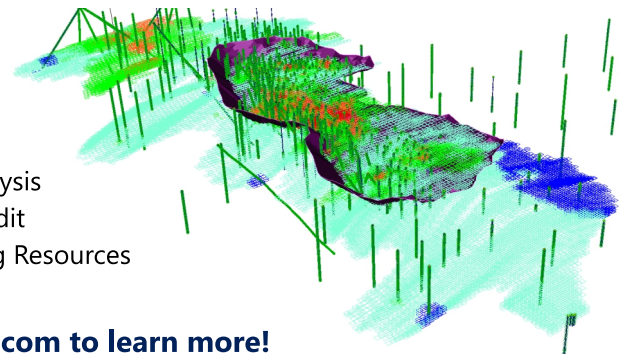

Caracle Creek is a leader in quantifying and verifying your mineral resources and reserve estimates.

We'll help you advance your project by completing resource estimates based on historic data. We also bring non-compliant estimates to compliance using the most cost effective drilling programs to verify your data.

Caracle Creek offers expertise at all states of the resource estimation period and beyond. We have experience working with gold, silver, base metals, PGE, REE, potash, industrial minerals, iron and coal.

Our Services include

- Drill Program Planning & Execution
- Quality Assurance/Quality Control
- Orebody Modelling
- Resource Estimation & Categorization
- N143-101 Compliant Reporting
- Statistical and Geostatistical Analysis
- Resource & Reserve Estimate Audit
- Recommendations for Upgrading Resources

About Caracle Creek

Caracle Creek's integrated approach to geophysical and geological services means you get the info you need to make the right decisions, at a fraction of the cost.

No more hiring separate consultants for different stages of your project. Our team is innovative and agile, just like you, and our geologists, geophysicists and engineers work together to make your project successful.

Whether you engage us to manage your entire project or to simply execute a few surveys, working with Caracle Creek is the right decision.

We have offices in Canada, South Africa and the Dominican Republic ready to serve you.
